# DETECT AI IMAGES

▶ Ask yourself what the **original source of the image** is.
▶ **Look for watermarks**

EXAMPLE

▶ **If there is text, check for typos.**

▶ **In this picture:**

1 **Analyze the details: pay attention to the hands, ears, eyes, teeth or hair.**
If there are disproportionate elements or exact symmetries that may catch your attention.

2 **What appears in the background of the image?**
Backgrounds may be blurred, textured or have errors.

3 **Eerie feeling or perfection.** AI images often have an unnatural feeling to them with flawless, plastic like skin.
